REITER
SEED PROCESSING
GmbH & Co. KG

Rectangle silo plants

Silos with flat walls

- Storage of poor flowing, cohesive and hygroscopic bulk goods
- Flat walls free of butt joints to avoid deposits
- Hermetic tight wall elements
- Highest hygiene and cleanliness
- No time-consuming cleaning works
- Very short assembly time

Silos with dam walls – welded

- Storage of free flowing bulk goods without cohesive and hygroscopic characteristics
- Molded walls free of butt joints to avoid deposits
- Hermetic tight wall elements
- High hygiene and cleanliness
- Very short assembly time

Silos with dam walls – bolted

- Flexible and cost efficient modular construction system made from galvanized components
- Wall plates with draining inclination 56° to avoid deposits
- Complete silo construction galvanized and bolted
- Wall elements connected with locking tooth screws
- Rain-proofed walls also without external paneling
- Suitable for roof loads
- Outside setup without additional constructions
