

Indented Cylinder Separators

type HSR

- Length grading of all granular materials such as wheat, oat, maize, rice, lentils, stones from peas, sticks from sunflower or sugar beet, etc., as well as for extraction of unwanted short or long admixtures
- Easy to operate and adjust
- Solid steel construction
- Modern and dust proof design, access doors easy to open
- Optimized indent form for best grading performance
- Single unit with round or long grain cylinder, modular combinable for round and long grain sorting or higher capacities (e.g. 1 over 1)
